BLOCK DIAGRAM

IMPROVEMENT OVER EXISTING SOLUTIONS

Seamless Application

Unlike existing systems, we provide different applications of upscaling. We provide general image upscaling along with video frames' upscaling.

Focal Length

We have aimed to develop a monohierachial based website that provides images upscaling applications along with image processing.

Layered based approach

VIDEO - FRAMES EXTRACTION - FACE RECOGINTION - FACE IMAGE UPSCALING

Product Development

We aim to continuously develop the project and take it to a product level inculcating all the features.

UNIQUE SELLING POINT

THE IDEA OF USING IMAGE UPSCALING FOR SURVEILANCE PROVIDES SEAMLESS APPLICATION IN SECURITY.

THE FACE IMAGE UPSCALING CAN BE USED TO IDENTIFY REQUIRED FACE IMAGES.

THANK YOU !
